

Transportation Made Easier!

GEOFFREY, MERU, KENYA
17TH DECEMBER, 2017

- This year's youth camp at Meru School of Theology had 96 youths attending, up from last year's 63. The camp was from 12th to 16th December.
- Teaching included, I was also able to provide transportation from the school to the town when need arose.
- Everyone was happy that we had a motor vehicle that made carrying of stuff needed at the school from the market easier.
- Allow me to share some of the images with you.

...the venue of the youth camp.

...buying a bag of potatoes at the market.

...figuring out how to load the bag.

...successfully loaded in the vehicle.

...next, buy cabbages

...cabbages all over the place!

...bargaining for a cheaper price.

...bought carrots, onions, rice, beans, potatoes

...offloading with Jeremiah at the school

...a photo with the wonderful youths.

...happy moments!

...with a man I baptized, now very useful.

...with Jeremiah and Kamau.

...dropping some of the youths to the bus stop

...was asked to get out! People needed photos!

...I complied!

...more 'drivers' wanted to drive!

...I had to wait

...and wait.

THANKS AND

BE BLESSED.
