

# A Goat Project For Me!

**GEOFFREY, MERU, KENYA**  
**JUNE 19TH, 2018**

...called on friends to help put up a goat house.

...some just came to spectate!

...others worked hard

...by the end of the day, the house was complete.

...my goats will no longer sleep outside!

...figuring out how to move this house to a different location in my compound

...everyone had their own ideas!

...a common small family house in my village.

...some for sons others for daughters.

...and here are what we call roads after heavy rains!

...getting to Meru town has become a nightmare!

...a motorbike for hire is a great idea!

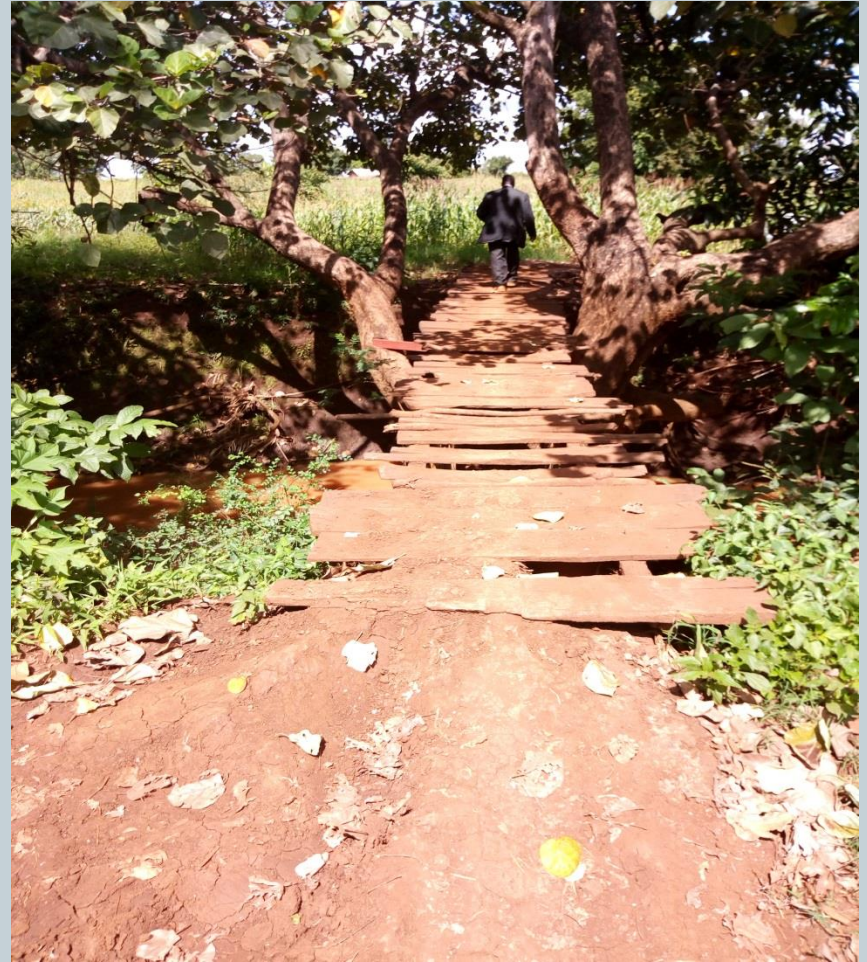

# ...Jeremiah and I hired one

...other times I have to leave the car at a safe place when the bridges are this type.

...ALL SAID AND DONE,

GOD IS GOOD

AND REMEMBER TO

COUNT YOUR BLESSINGS.
